GitHub: <https://github.com/GMR-26>

## PROGRAMMING LANGUAGES

Python, C, Java

---

Enthusiastic Computer Science Graduate with a solid foundation in programming, machine learning, and Artificial Intelligence. Skilled in building scalable tools and passionate about solving real-world problems through technology while continuously learning and growing.

---

## EDUCATION

### B. Tech in Computer Science and Engineering (Minor in Robotics and Automation)

June 2022-April 2026

*Adi Shankara Institute of Engineering and Technology,  
Kalady, Kerala, India*

CGPA : 8.35

### Higher Secondary

June 2020- May 2022

*Don Bosco HSS, Irinjalakuda*

Percentage: 95.1%

### AISSE (10th)

June 2019- May 2020

*Shantiniketan International School, Kodungallur*

Percentage: 88.2%

---

## PROJECTS

### AI-Driven Smart Agriculture with Soil Intelligence

Oct 2025 – May 2026

- Developed an AI + IoT system monitoring soil parameters (NPK, pH, moisture, temperature) using ESP32 sensors with a FastAPI
- Backend for real-time data processing.
- Implemented Random Forest models for crop and fertilizer recommendations; integrated Chatbot system using Gemini API for enhanced user interaction.

### Weatherly- Weather Forecasting Web Application

May 2025

- Engineered a responsive weather application using HTML5, CSS3, and JavaScript ES6+ with Vite build tool
- Integrated OpenWeatherMap API to fetch real-time weather data and 5-day forecasts for global locations
- Developed dynamic data visualization including temperature variance indicators and interactive forecast cards

### AI-Powered Speech Analysis Tool for Speech Therapists

Jan 2025 – Mar 2025

- Developed a Django-based web application to assist therapists in diagnosing disorders like dysarthria.
- Implemented real-time audio capture and MFCC extraction using Librosa.
- Built a Random Forest model (98% accuracy) and integrated Scikit-learn for classification.
- Visualized audio features using Matplotlib; deployed a responsive, secure clinical interface.

Paper Published at: ICIMRBE – April 4, 2025

---

## INTERNSHIPS

### Python Development Intern – Zoople Technologies, Kochi

July 2024

Explored advanced Python programming and Django web framework development.

### C++ Intern – WeCode Life, Kochi

May 2023

Strengthened core C/C++ programming concepts through hands-on exercises and learning modules

---

## CERTIFICATES

- Introduction to Natural Language Processing - Infosys Springboard
- Artificial Intelligence Foundation Certification – Infosys Springboard
- Introduction on Artificial Intelligence- Infosys Springboard
- Introduction to Deep Learning – Infosys Springboard
- Agentforce Specialist – Salesforce Certified

---

## SKILLS

- Languages: Python, C, Java, SQL
- Backend: Django
- Soft Skills: Effective Communication, Team Collaboration, Problem Solving, Time Management,
- Basic proficiency in MS Office (Excel, PowerPoint, Word)
- Concepts: Machine Learning, DBMS, Data Analysis, Artificial Intelligence, Data Structure Algorithms
- OS: Linux, Windows
- Tools & Build Systems: GitHub, VS Code

---

## LEADERSHIP & ACTIVITIES

### Salesforce Trailhead - Agentblazers Trail

Aug 2025 – Sept 2025

- Mountaineer Rank | 30,650+ points, 72 badges, 7 trails
- Salesforce Certified Agentforce Specialist (Active)
- 4 Agentforce Superbadges (Apex, Advanced Flow, Service, Prompt Builder)
- Agentblazer Legend (2025, 2026)
- Hands-on experience with AI agents, Flows, Apex, Prompt Builder, Data 360, and autonomous agent design

### Co-Program Lead, Game Development Club – ASIET

Nov 2023 – March 2025

- Organized workshops (e.g., Unity) and technical activities promoting game dev skills.
